A significant milestone was marked on 31st Dec 2024 for the National Institute of Technical Teachers' Training & Research (NITTTR), Kolkata, and RASTA – Center for Road Technology, Bangalore; both institutions embarked on signing a Memorandum of Understanding (MOU). The MOU signed by Dr. Debi Prasad Mishra, Director of NITTTR, Kolkata, and Mr. B. Sridhar, Trust Administrator of RASTA, set the foundation for future deliberations and collaborations between the two esteemed institutions.

The Signing Event was brief yet impactful, highlighting the shared vision and potential for synergy between RASTA and NITTTR. Dr. Debi Prasad Mishra and Prof. A Veeraragavan, Technical Advisor of RASTA, discussed the strategic commitments envisioned for the upcoming year, emphasizing the mutual benefits and opportunities this partnership will bring. The deliberations further underscored the importance of collaboration in driving innovation,

capacity building, and knowledge exchange to address challenges in Artificial Intelligence and Machine learning Applications, Road Technology, and Infrastructure development.

Memorandum of Understanding (MOU) - Signing

The MOU signing signifies a promising beginning for a long-lasting association that aims to enhance the capabilities of both institutions. This collaboration is expected to create meaningful impacts that will benefit the institutions and the broader community through improved technical education, research, and infrastructure solutions.

In conclusion, the event highlighted the mutual commitment of NITTTR, Kolkata, and RASTA to working together to achieve common goals. We are optimistic about the opportunities this collaboration will bring and look forward to the successful implementation of initiatives arising from this partnership.
