About Program

Innovation, Incubation and Entrepreneur Development has now become a powerful tool for knowledge-based economy to grow at a faster rate maintaining, stability, sustainability and reliability. Academia, industries & entrepreneurs can hone their skills under one umbrella aiming towards economic development of nation through start-ups, skill enhancement and preparing job providers for our unemployed youth. Development of technologies, inclusive or exclusive, through research programs of institutes after formal licensing of inventions/software may also be done through this venture. In a nutshell, incubation & innovation programs have now become an important topics worldwide and have contributed positively towards economic growth of the nation.

To delve on these issues, a five days training program has been organised to inculcate the innovation, incubation & start-up culture for the stake holders (faculties, scholars & students) of the institute.
